EDUCATION

M.H. Saboo Siddik College of Engineering – Byculla, Mumbai 2020 – 2024

Bachelor of Engineering, Computer Science and Engineering (AIML) | CGPA: 9.42

S. I. E. S College of Arts, Science and Commerce – Sion, Mumbai 2018 – 2020

Higher Secondary School | Aggregate: 82.46

PROJECTS

Guessify | React, Firebase, Socket.io, SCSS GitHub | 2024

- Engineered a user-centric gaming website, allowing users to create personalized gaming rooms and engage in friendly guessing competitions, featuring a message box for real-time discussion and an updated scorecard at the end of each round.
- Implemented a minimalist design and intuitive functionality to optimize the user experience, fostering a seamless and enjoyable gaming environment.
- Website in making....

QuizR | ReactJS, MongoDB, NodeJS, Tailwind CSS GitHub | 2023

- Developed an interactive and collaborative quiz platform featuring categorical quizzes and user profile functionalities, allowing users to track their current best scores.
- Implemented a seamless and engaging experience to enhance user participation and satisfaction.

SquadBuilder | PHP, MySQL, JavaScript, Bootstrap GitHub | 2022

- Engineered a dynamic fantasy football league platform, enabling users to compete and strategize effectively by providing comprehensive player and match information with advanced filtering, searching, and sorting functionalities for team members.
- Developed a user-friendly interface allowing users to create personalized fantasy teams using any formation, enhancing the flexibility and enjoyment of the fantasy football experience.

E-Learning | PHP, MySQL, JavaScript, Python GitHub | 2022

- Designed and implemented an intuitive website catering to campus students for online course learning, integrating an AI chatbot for enhanced user support and interaction.
- Developed an efficient admin dashboard enabling administrators to effortlessly track and manage current courses, ensuring streamlined administration and optimal learning experiences.

WORK EXPERIENCE

CMS Intern | NIC | Mumbai 06/23 – 08/23

- During my tenure as a Project Intern at the esteemed National Informatics Center (NIC), I have been actively engaged in a crucial initiative focused on migrating the Maharashtra Government Websites to the cutting-edge S3WaaS Framework.
- Within this role, my daily responsibilities encompass a diverse range of tasks, including meticulous content migration while adhering rigorously to the Government of India Web Guidelines (GIGW)
- I have been actively involved in conducting comprehensive website audits to ensure compliance with prescribed standards and best practices.

GDSC Member | GDSC Club | Mumbai 08/22 – Present

- As an esteemed member of Google DSC for my college campus, I possess the necessary knowledge and expertise to undertake diverse projects. Irrespective of project scale, I consistently bring my best efforts, infused with a healthy dose of creativity.
- My primary focus lies in constructing dynamic websites, designing systems, composing engineering assignments, and diligently exploring and acquainting myself with emerging technologies.
- My proficiency spans from developing customized websites to optimizing existing systems and constructing robust machine learning models.
